01 · ABOUT US

Dynamic, young and passionate about *facades*.

Art Space Industries was founded in 2019 in Noida with one goal: to give every building a facade its owner is proud of.

Our work spans modern and luxury interior and exterior design across residential, commercial and hospitality spaces. We always try to create something new for each client. That is why so many have become like family, and the biggest reason we have grown so quickly.

states served

From villas to institutional campuses, our systems have been engineered and installed across Delhi NCR, Uttar Pradesh, Haryana, Rajasthan and Bihar, for clients including Shapoorji Pallonji, NCRTC and Jubilant FoodWorks.

The people behind every facade

Rajeev Yadav

FOUNDER & CEO

Founded Art Space Industries in 2019 and leads design direction, client relationships and new projects, working closely with homeowners and architects.

Manish Kumar Verma

MANAGING DIRECTOR

Runs operations day to day, from site measurement and material planning to installation and handover, so every project is delivered on time.

“Good design isn't just seen. It's felt in every space.”

From material science to master craftsmanship, our team combines skilled installers, modern tools and a commitment to relationships that turns first projects into lasting partnerships.

Mission, vision and values

01

Mission

To give every client focused, responsible service, built on dedication, professionalism and outstanding workmanship, as we bring their ideas to life.

02

Vision

To be known as a respected facade company that delivers high-quality design and installation with honesty and integrity.

03

Values

We listen first. Every design comes from careful discussion with clients and partners, so the finished building is exactly what they wanted.

“Design is not making beauty; beauty emerges from selection, affinities, integration, love.”

LOUIS KAHN

Interior and exterior cladding solutions

Every service is available as material supply only, or as complete supply and installation by our own team.

Which material, *where?*

ACP

Aluminium Composite Panel

- ✓ Clean, modern look with sharp lines
- ✓ Light weight: easy on the structure, quick to install
- ✓ Weather-proof and easy to wash
- ✓ Fire-retardant (FR) grades for commercial buildings

Best for: home fronts, showrooms, offices, signage walls

HPL

High Pressure Laminate

- ✓ Premium, natural-looking wood and stone finishes
- ✓ Scratch- and impact-resistant
- ✓ Keeps its colour in strong sun
- ✓ Almost no maintenance

Best for: feature walls, balconies, premium elevations

WPC

Wood Plastic Composite

- ✓ Warm timber look
- ✓ No termites, rot or yearly polishing
- ✓ Handles rain and damp well
- ✓ Panels and Solwood louvers for many styles

Best for: villas, terraces, balconies, boundary walls

Louvers

Aluminium Profiles and Fluted Louvers

- ✓ Shade and privacy without blocking air
- ✓ Adds rhythm and height to a facade
- ✓ Never rusts, no painting needed
- ✓ Cuts glare and heat on sunny sides

Best for: elevations, sunshades, staircases, gates

CNC jaali

Aluminium Perforated and CNC Panels

- ✓ Unique patterns, even your own design
- ✓ Privacy with light and ventilation
- ✓ Looks stunning with lights behind it at night
- ✓ Rust-free and long-lasting

Best for: feature facades, staircases, terraces, hospital and office fronts

Zinc

Zinc Roofing and Cladding

- ✓ 50+ year service life with zero rust
- ✓ Self-healing protective patina that ages gracefully
- ✓ Proven on our university and state guest house projects
- ✓ High architectural distinction and value

Best for: institutional, commercial and landmark buildings

From first call to finished facade

01

Estimate online

Use our cost calculator or send us your wall size and a photo. You get a price range in minutes.

02

Free site visit

Our team measures on site in Delhi NCR, checks the structure and shows you real samples.

03

Design and quote

We suggest materials and finishes and send a clear written quote, with timelines.

04

Install and hand over

Our own installers fix the frame and panels, clean up, and hand over a finished facade.
